THE M'COLLOCH CASE. Nothing | New Yesterday-The Interes

In spite of the fact that there was no nev estarday and not even a good vigorous ru It is still the leading topic of conversation and the circulation of new reports has given way to spaculation on old ones. Many people ubt whether it was Mr. McColloch whom Mr. Henderson and Mics Abercromble saw at Chicago last Friday, though the fact that the

Onicago Irst Friday, though the fact that the man who was seen wore a gray overcost to stead of a brown one is all the reason they have to suggest for doubling.

One of the parties who has been engaged in the search for Mr. McColloch said yesterday that if the public would wait patiently the unstern would be explained in good time. This and other remarks made by those who are in positions to obtain all the information accessible to analysely, give rise to the belief that the item committee are in postession of facels which are not known to the public at large. Nearly everybody have abandoned the idea that the missing man is dead. Some embarrashing compilications are met with in the Circuit Courts on account of the absence of the Clerk. One of these is in regard to talary. Two assistants who have done some clerical work are to be paid, but there is no legal warrant for drawing orders payable to them. Heretofore they have ceen paid by the clerk. Clerk Woods, of the Board of Commissioners, will only serve as Clerk of the Courts until a return is made to

The following story is from last evening's Seubenville Heralit:

John Corey, who was employed as manager of the coal tipple scross the river went to Pittsburch a few weeks ago to seek a position, his employment at the tipple having ceased. He wrote his wife to pack up the household goods and prepare to move last Wednesday, when he would be down to assist. His family, who live near the tipple, made ready to go, but he did not come, and hay falled to write or to answer telegrams. His wife thinks he came down on one of the night trains which do not stop at Wheeling Junction, and trying to walk the bridge on his way home fell off. This is not at all probable. His wife with seven children is without money and distracted. Nathaniel Wells is in Pittsburgh to-day endeavoiring to learn his whertabouts.

Lyon:

"Again in the Frovidence of God we are called to record the death of one of our number, Mr. John Ocsterling, of the Central Cless Company, Wheeling, who was suddenly stricken down on the night of the 16th inst. Mr. Oesterling was born in Germsby on the 4th of January, 1824. He served an apprenticeship in a machine shop in his native country, and soon after his arrival in the land of his adoption entered the cetab-

ance, and, so a consequence, achieved success, that factory being at this time among
the largest and most properous in this country. His health for several years past, impaired by long and absorbing labor, male it
necessary to rest for a while on several occasions, on two of which he went to Europe
and visited the scenes of his youth, and returned benefited and encouraged. But hit
time had come and his place among us is vacant. We recall with pleanire as he sat
among us, his calm and judicious counsel,
his genial and bezignant manner. All who
knew him honored and respected him se a
man of unbeading integrity; he was candid
and sincere in his disposition, yet modest
and retiring. He was a man of deep feeling
and strong convictions, and hence his esteen
and friencably were worth something. For
meanners and trickery he had a great contempt and was not backward in expressing it.
